

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working within an atmosphere which supports the highest integrity with empowered collaboration, combined with a unremitting pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively applying principals of environmental safety and stewardship in how they do business. The business has put different programs in place so as to articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whichever comments or questions, as they are glad to promote and share this policy with a greater understanding of their efforts. They are really devoted to improving and preserving the natural environment. AxleTech has an EHS program which not only protects the environment but which even actively protects their neighbors and staff as well.

AxleTech specializes in the designing and manufacture of planetary axles utilized for both military and commercial applications, that could consist of anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider as well. AxleTech particularly designs axles to meet certain application demands. They have more than one thousand different axle specs within their present offering. With over 100+ years of history and experience, AxleTech proudly supplies the most complete solution for any of your axle requirements. The company is well known in numerous commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product collection.
