Clark's extraordinary Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the operator restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the globally approved quality standard ISO 9001 for each and every one of their production facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly facilities because this method is particularly economical and permits minimal use of resources. Established to ensure maximum proficiency, this system is intended to find and acknowledge the most efficient methods for manufacturing facility management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and excellence of their products while minimizing expenses. The new value engineering program combines innovative product improvement and offers improved customer support and service within the industry.
