

Ingersoll Rand Forklift Part

Ingersoll Rand Forklift Parts - Offering solutions, services and products to be able to increase the productivity and to ensure efficiency in commercial, residential and industrial environments, Ingersoll Rand is very proud provider of products which help enhance the safety, comfort, security and health of individuals all over the world.

The Climate Solutions sector delivers a world-class product line of energy efficient HVACR solutions for clients. Thermo King is the leader in transport temperature control, while Hussmann is a maker of food merchandising and refrigeration solutions. Trane is a trusted provider of energy efficient air conditioning and heating ventilation systems, contracting and building services, parts support and advanced controls used for both residential homes and commercial buildings.

The Industrial Technologies sector of Ingersoll Rand provides solutions and products to improve productivity, operations and energy efficiency for their customers. The range of products in their line comprise: tools and pumps, and material fluid handling systems to complete compressed air systems. They have even developed Club Car, the international leader in utility and golf vehicles for people and companies.

Brand names like for example Schlage and Trane provide residential solutions which offer efficiency, comfort and safety to home owners around North America. Their innovative products include electronic and mechanical locks, indoor air quality solutions, air conditioning and heating systems, portable security systems, advanced controls and remote home management.

Ingersoll Rand' Security technologies offer products which ensure secure, safe and productive environments. This division's market leading products comprise door and floor closers, exit devices, portable security devices, biometric and electronic cabinet hardware, access control systems, steel frames and locks and doors, locksets and decorative hardware. Schlage even has products which offer personal, time and attendance scheduling systems.
