

## Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts may be specifically marked to be utilized in unsafe sites. A marked truck indicates the design has met the minimum standards of ANSI/UL 558 for engine powered lift trucks or ANSI/UL 583 used for electric lift trucks for the type of label placed.

Applications for marked trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Type Designations, Areas of Use, and Maintenance and Operation. Consult your local insurance provider and Fire Marshall for further information regarding the permitted uses of industrial powered trucks in your application.

If the particular lift truck meets the outlined criteria, labels may be placed. A labeled forklift will show the type of designation located on the nameplate and would have a correctly corresponding label placed.
